

NOVELIO®
WALLSHIELD

BEAUTIFUL WALLS MAKE BEAUTIFUL SPACES

WITH FIBERGLASS
WALL COVERINGS

The background of the entire image is a dark, heavily textured wall, possibly made of brick or a similar material. A long, thin, horizontal light fixture is mounted on the wall, emitting a soft glow. In the bottom right corner, a portion of a green armchair with a wooden frame is visible.

WALLS MEAN THE WORLD TO YOU

They're more than just brick and mortar.
You spend half your life indoors, within these walls.
They have seen a family of two grow into four.
They brought out the Picasso in your kids.
They showed off your daughter's medals to every guest.
These walls have witnessed birthdays and anniversaries.
Parties and movie nights.
The many boisterous get-togethers you've hosted.
They made your guests ask for a home tour.
You've laughed, cried and grown up within these walls.
These walls have memories of a lifetime.
Make sure they last a lifetime too.
Protect them.

NOVELIO® WALLSHIELD. THE BEST WAY TO PROTECT YOUR WALLS.

As the pioneers in fiberglass wallcoverings, we believe your walls deserve better. Better than what paint, tiles or plywood have to offer. Novelio® Wallshield is the result of decades of material science research and development. It's the first of its kind. Glass in the form of yarns are woven into sturdy mesh-like structures which are then reinforced with coating for extreme durability to make the toughest material with the most beautiful textures. Imagine science and art coming together to adorn your walls.

SO MANY TEXTURES, SO FEW WALLS.

Novelio® Wallshield comes in a range of exquisite textures and patterns for homes, offices, boutiques, hotels and malls. They're also printable/paintable. Each variant boasts a unique weave and tactile feel, very different from the next. So you can customize every space with walls that look and feel so good, anybody will want to reach out and touch them. You'll just wish you had more walls.

HOW TO INSTALL BEAUTIFULLY

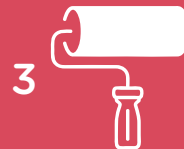

(READY-TO-USE RANGE)

1 Wall preparation:
Substrate must be clean, dry, level, and stable; cracks filled, and putty-finished walls primed with 1-2 coats of oil-based primer before Wall Covering application.

2 Cut the roll to length according to room height (+10cm).

3 Apply the dispersion adhesive evenly on the wall using a roller (200g/m²).

4 Place the Wall Covering panel on the wall vertically and smooth it with a plastic spatula.

Repeat steps 2, 3, 4, and 5 with other panels until the whole wall is covered.

5 Place the adjacent panel edge to edge (respect the vertical pattern repeat). For paintable joints, ensure the strips are aligned and the edges have neat, proper contact.

6 Overlap two strips by 3-5cm, cut through both layers, remove the excess for a butt joint, and wipe off adhesive with a wet sponge.

7 Wait for 24 hours for drying of the Wall Covering before using the space.

All Fiberglass Wall Coverings are carefully checked before leaving our factory. Please check once again before installation. Any claim should be accompanied with roll label and sample featuring the defect.

Note: Wall preparation is in the scope of the customer and not of Saint-Gobain or the dealer.

CLASSIC PRINTABLE

Art prints have long been the go-to for interior designers. Now, art will no longer be imprisoned in a frame. Imagine art being liberated from its frame, free to spread its canvas and adorn the entire wall from floor to ceiling. Your favourite artist, now showing at a wall near you.

CLASSIC CEILING - T1006C

When beauty is high on your list of priorities,
indulge the ceiling too, please.

Note: Digital printing of the image is in the scope of our dealer & not Saint-Gobain.

CLASSIC DECOVEIL - GV190C

Give your walls a new backdrop,
and yourself, compliments nonstop.

Note: Digital printing of the image is in the scope of our dealer & not Saint-Gobain.
